LOOKING FOR DUPLICITY

Americans Expect Trouble With Intriguing Spaniards

SEEK TO REGAIN BY DIPLOMACY WHAT THEY LOST BY WAR

Washington, Sept. 14.—Special—The approval by the Spanish cortes of the protocol of peace practically ends the possibility of a renewal of hostilities. It is, of course, possible for a disagreement to arise in one of the three international conferences, but the danger is somewhat remote and causes little anxiety. It would be without precedent if, at this stage of affairs, a dispute of sufficient gravity should arise to cause a renewal of war conditions. Officials are therefore sanguine that there will be no more fighting and feel that it will be safe to proceed with the disbandment of the volunteer army. As a matter of precaution, however, no steps in that direction will be taken until the expiration of the furloughs of those regiments that have been sent home.

Affairs in Cuba.

Havana, Sept. 14.—Special—The American commissioners are being flooded with petitions from Cubans. The release of political prisoners and the suspension of the customs duties are among the things that have been asked for. President Maso has issued a proclamation saying the time has come to form a provisional government that will take care of the country until a stable government announced by the United States is established. The proclamation says the Cubans don't want annexation but independence. At the same time the annexationists are working hard. The assembly for the election of a president will be held at Cubatis in October. Galixto Garcia, Maso, Capote, and Jose Gomez are candidates for the presidency.

An Encouraging View.

Washington, Sept. 14.—Special—"Never fear," said a prominent official of the state department today, "the United States will not be overreached by Spain in the matter of arranging a settlement of the issues of war. The government is familiar with Spain's duplicity, and has taken every possible safeguard. The commissioners will submit to no dictation but insist upon the letter of the terms proposed in the protocol and accepted by the Madrid government. There is no likelihood that any of the advantages gained by war will be lost through poor diplomacy."

HE PRAISES THE HOSPITAL

Milwaukee Father Writes of What He Saw At Jacksonville.

The following letter appears in the Milwaukee Journal: Since my return from Jacksonville last week I have been asked many times as to the condition of the sick in the hospital and whether they have proper care. As there are still a large number of sick Wisconsin soldiers in the hospital there friends are naturally solicitous on these points. I want here to assure them that the sick soldiers are all receiving and have been receiving the best of treatment in every respect. The physicians are not only skillful, but are very careful and unremitting in their attention to the stricken ones. There are plenty of trained nurses, a big and self-sufficient women, who are doing for the poor boys all that their own mothers could do. The attendants are all kind, gentle and assiduous. The hospital is clean and every care is taken to bring the sick back to health.

I spent two days in close attendance at the hospital, called there on the saddest of all sad errands, the illness of a beloved son who died of the typhoid fever two days after my arrival. Such being the case, it was but natural that I should make a critical examination of all his surroundings. I found them all that could be desired. The cause of my boy's death lies farther back than that. If care and attention could have saved his life, he would not have died. Though he was so low when I reached him I could see by the way in which he regarded his nurse that he loved her for what she was doing for him, and he had only kind words for the doctors and attendants. There was not the least complaint from him as to the treatment he received. Looking back over the matter now, I can assure the relatives of the poor boys that they are in good hands. It was comforting to me to know these things, perhaps the knowledge of them may also comfort others

who are anxious about their loved ones.

It is not easy to write of such things under the shadow of such heavy affliction, but I feel that my words may help some grief-stricken parents and buoy them up by hope that their boys may be returned to them in due time restored to health by the ministering angels of the hospital. The dark side of the picture is in the camp where the soldier boys were stricken down with the fever, not in the hospital. C. L. POWERS.

SHIPPING ICE TO CHICAGO

Large Quantities of Congealed Water Being Sent to the Windy City

Chicago parties have made the purchase of 1,000 tons of ice in this city of the City Ice Company. It is now being shipped to the Windy City in carload lots as ordered.

The purchase was made by small dealers who are not included in the great combine that now has all Chicago in its grasp. The ice was cut near the upper railroad bridge, and is pronounced by the Chicago ice inspector fully up to the average quality sold in Chicago.

Henry Tail, of the City Ice Company, is speaking of the sale, says that they were able to spare it, as they had cut an extra large supply last winter. About one-half of the Chicago ice has already been shipped.

GOING SOUTH THIS EVENING

Fourth Regiment Will Pass Through Janesville On the Northwestern.

Between 7:30 and 8:30 o'clock this evening, two special trains will arrive in Janesville from Camp Douglas over the Northwestern road, containing members of the Fourth Wisconsin regiment, who are on their way to Anniston, Ala. After a brief stay here the trains will leave for the south. Each train is composed of fifteen sleepers. The Fourth Wisconsin is to camp at Anniston till further orders.

ANARCHY MUST BE SUPPRESSED

POWERS OF EUROPE UNITE AGAINST MALCONTENTS

Repressive Measure Of a Stringent Nature Will Be Adopted—Enemies Of the Government Will Be Relentlessly Pursued—An Exodus to the United States Has Begun.

Berlin Sept. 14.—[Special]—It is reported that Germany has decided to take the initiative in resuming diplomatic action designed to institute international measures against anarchy. The confinement of anarchists within the limits of their respective countries will be proposed.

London, Sept. 14.—[Special]—The powers are getting together to suppress anarchy more radically than they are to promote the czar's peace plan. Suspected anarchist conspirators will probably, when caught, be imprisoned for life as one originally insane. Evidence as ordinarily understood will not be necessary. Such is the paucity of feeling that to punish one guilty man will be thought worth the cost of injustice to nine who are innocent. A general exodus of anarchists to the United States is expected, and has probably already begun.

Trieste, Sept. 14.—[Special]—A force of two hundred police was sent to guard the club in this city which, it was feared, would be attacked by the populace who are still infuriated against the Italians on account of the murder of the empress by an Italian anarchist. Five more arrests have been made, making 120 now in custody for participation in the anti-Italian riots.

MAKE READY TO FIGHT

Chili and Argentina Are Preparing For a Conflict Of Magnitude.

Valparaiso, Sept. 14.—[Special]—Preparations for war with Argentina continue. The army is being increased to a hundred thousand men. The quarrel is over the boundary lines.

WILL PLEASE THE PATRONS

Tomorrow Night's Performance of The Gay Matinee Girl.

When the curtain at the Myers Grand Opera House rises tomorrow night it will reveal to the public a company of artists of high rank in a musical comedy that is bound to please.

For some years past thinking men of the theatre have realized that the day of one real artist surrounded by a company of stiffs has passed—is gone forever, for which the fates be praised. Hardly an issue of an important paper appears that does not contain this idea, expressed by some well-known writer or actor. Edwin P. Hilton, a manager of over a dozen years' good standing, has long felt that to take advantage of this would be excellent business judgment; and in the production of the new, dainty operetta comedy, "The Gay Matinee Girl," he claims that every one of the twenty-two members of the company is a player of established reputation, endowed with talent and ambition of the right kind and in consequence their success last season was most emphatic. For the coming season the company has been wonderfully strengthened; entirely new scenery prepared, hundreds of new features introduced and Mr. Hilton feels that he is not boasting when he says he has the brightest, neatest, richest and funniest production of the year, and, as if to emphasize his claims, the critics, wherever the company has been seen, have none but good words for it and the musical comedy.

COLORED SINGERS DID WELL

Gave a Very Acceptable Concert At Court Street Church.

The Nashville students gave a very pleasant musical entertainment at the Court Street M. E. church last evening under the auspices of the Epworth League. The performers were all colored people and possessed in an eminent degree their racial talent for melody. While the performance could not be termed strictly artistic it was highly enjoyable, the voices being rich and well trained. Many of the popular melodies of the present and other days were rendered with much spirit and were received with hearty applause. As a whole the concert was an excellent one and deserved a more liberal patronage than it received.

THE FUNERAL TRAIN LEAVES FOR VIENNA

Streets Are Lined With Sorrowing People and All Public and Private Buildings Were Draped With Evidences of Sincere Grief—Flags at Half Mast.

Geneva, Sept. 14.—[Special]—The body of the Empress of Austria was taken from the Hotel Beauvillage this morning and conveyed to the railway station, where it was placed aboard a special train which is to convey it to Vienna. The streets were lined with sorrowing spectators. All private buildings were draped with black, and flags were at half mast.

CRETE IS PEACEABLE

No Further Disturbances Have Occurred, Owing to the Stand of the British Admiral.

Candia, Sept. 14.—[Special]—The situation is peaceful. The Mussulmans have decided to accept the ultimatum calling for the disarmament of the populace if the British admiral is sure he can overcome the Bassi Bazuks.

SOLDIER'S BURIAL AT BELOIT

Sergeant Cassius Morris Interred With Military Honors.

Many from this city, including several members of Co. A, were in Beloit today to attend the funeral of the late Cassius Morris, a sergeant in Co. E, who died at Jacksonville. At 2 o'clock services were held from the Baptist church, where the body lay in state from 10:30 a. m. till 1:30 p. m. Co. E, of Beloit, had charge of the services at the grave, the interment being in the Beloit cemetery. All the Line City turned out to do honor to her soldier dead, and the funeral was largely attended. Those who went from here will return this evening.

TOBACCO IS ALL HARVESTED

Farmers Have Been Hustling in Anticipation of Frost

Local leaf tobacco dealers who have been riding about the country of late, say that but very little tobacco now remains in the fields. The cool weather of late has had a tendency to hasten the harvesters along, and for fear of frost no time has been lost in putting the crops in shed. This cool weather has furnished work for many men who have been idle of late about town. Rather than run any risk from coming frosts the growers have paid as high as \$2 a day for men and boys to help harvest the crop.

MR. HODGDON'S FUNERAL

It Was Largely Attended By Friends of the Deceased

All that was mortal of the late J. Warren Hodgdon was laid to rest this afternoon in Oak Hill cemetery. At 2 o'clock services were held from the Terrace street home of the deceased, being largely attended. Rev. A. O. Kempton, of the Baptist church, officiated and members of the local Odd Fellows and Rebecca orders attended.

EDGERTON WON THE GAME

Captured the Big Purse From the Waupun Champions.

The Edgerton-Waupun base ball game played at Edgerton today for a \$200 purse, resulted in a victory for Edgerton by a score of 7 to 0.

A large crowd witnessed the game, which was well played and interesting throughout. Many attended from this city.

AGUINALDO EVACUATES

Philippine Insurgents Leave Manila With Shouts For America

APPARENTLY CONTENT WITH CONDITIONS AS THEY EXIST

Washington, Sept. 14.—Special—The fate of the Philippines is still suspended in the balance. At the cabinet meeting yesterday it was practically decided to demand that Spain evacuate the whole group. It was also determined that the United States should retain Luzon as a permanent possession. This conclusion was arrived at with the knowledge of Aguinaldo's submission to the authority of Gen. Otis. That chieftain at last recognizes the uselessness of attempting to interfere with the American policy, and will take his chances under the new order of things. It has not yet been decided what will be done with the remainder of the Philippine group. One thing is certain, however: Spanish authority and influence will not be permitted to dominate.

Affairs at Porto Rico.

San Juan, Sept. 14.—Special—The Spanish war vessels, Concha, Ponce de Leon Second and Terror sailed for Spain this morning.

While great secrecy is being observed regarding the deliberations of the joint military commissions, it is reported that Spain agrees to the hoisting of the American flag here within two or three days, the evacuation of the Spanish troops to follow with all possible haste.

Insurgents Receive an Ultimatum.

Washington, Sept. 14.—Special—It is stated this morning that Dewey and Otis have been instructed to allow the insurgents no further latitude. They are to be compelled to observe the armistice and to respect the lives and property of all persons who have been deprived of the protection of the Spanish arms. Force will be used if necessary to subjugate the insurgents.

Insurgents Evacuate.

Manila, Sept. 14.—Special—The insurgents evacuated the suburbs of Manila today in a grand march in which nearly 3,000 men took part, carrying rifles, colors waving, bands playing and shouting "Viva Americanos," "Viva Filipinos Libres."

RAY WELCH WRITES OF LIFE AT SEA

FORMER JANESVILLE BOY IN
THE NAVY.

Now Serving As Apothecary On the United States Supply Ship "Hannibal" and En Route Home After Service in Cuban Waters—Notes of His Journeys.

Ray Welch, formerly of this city, but now apothecary on the United States supply ship "Hannibal," writes the following interesting letter to his mother, Mrs. E. F. Welch:

My DEAR MOTHER—Here we are, cruising along, with the beautiful green mountains of Cuba, and numberless little white and green cays or keys on our left or leeward side, and the broad Bahama channel on our right, or windward side. Ahead of us steaming along at full speed are the two monitors Pritan and Terror, looking like two little animated puffing tubes, and the more dignified and stately Montgomery with a kind of dignified air of disgust at having to jog along in such slow company. The Montgomery is a cruiser capable of rolling off 18 or 20 knots an hour, and to have to keep company with a knot class must be exasperating to her. We have left the Amphitrite behind at Mole St. Nicholas to be escorted by the Yosemite, as she was too slow even for us. Our point of destination for this trip is changed from Nassau, Bahamas, to a point nearer home, Turtle Harbor, one of the Florida Keys, about eighty miles north of Key West. So tomorrow night we will be on Uncle Sam's soil once more. Then we will coal up the three "men of war," and leave there about Saturday afternoon for Charleston, S. C.

There we expect to again coal them up which will about take the last of our cargo. Then on to New York, thank goodness, where we hope to strike civilization and cool weather once more. We had the good fortune to secure from the supply ship Glacier, about 200 pounds of ice, 50 pounds of fresh meats, and a barrel of potatoes, one-fourth pound of onions, and some canned corn and tomatoes, so we are living once more. We have run into warmer weather now that we have run under the line of the Bahamas, and I hope that it will cool off as we approach the north. If it does not we may have the misfortune to be quarantined for ten days when we reach the Port of New York on account of coming from the yellow fever district. How exasperating that would be to have to lay off Staten Island with New York in sight, not a man allowed to go ashore, and no yellow fever aboard. But we had better wait till we come to our troubles before complaining. Now that we are going home we can bear all our little inconveniences easier, and the time does not seem to pass so slowly.

You would laugh to see me scrub and wash clothes. We have had no chance to send things to the laundry since we left Norfolk seven weeks ago. So I got my little cake of saltwater soap and a pail of water and sailed into my duds. As a shirt only remains clean about one day on account of our coal cargo, I occupy a little time in the laundry.

Thursday afternoon—I have come to making each letter nowadays a sort of a diary, written in daily installments. Having no chance of posting letters when written, I just commence another on the same paper and send two or three letters in one envelope.

We have just passed Fowry Rocks lighthouse, the northern extremity of the Florida Keys. There was a howl of delight sent up from us all when we sighted it, for it meant that we were in sight of Uncle Sam's domains again, and that meant nearer home. Have learned to appreciate the little ancient ditty entitled "Home, Sweet Home!" since we have been on this long cruise.

We were signalled this morning just as we were heading for Tenth Harbor to "proceed to Charleston direct." So instead of running into a hot little bay and coaling ship for 48 hours we gained that much time by running straight on and doing all our coaling there. The Terror and Montgomery both signalled to the flag ship, the Puritan, that they had coal enough to risk it so after signalling us to change our course to N.E. we all poked our noses toward Charleston. The signalling manoeuvres of a naval fleet are very pretty. When each vessel of the fleet files from masthead to pilot deck a long string of oddly shaped and vari-colored flags and pennants, each vessel steaming at full speed and the signal halyards run up and down with colors changing rapidly the effect is very striking. As each pennant, flag and streamer mean whole sentences and these vessels running them up and down simultaneously, the flag officer of a flag ship has no sinicure. We are now near Miami, Florida, and the sight of good old America once more, with its long white sand

beaches and groves of green palms does one's heart good. The coast line of Florida and the West Indies is quite different. Here there is a long low-lying white sandy beach while Cuba, Hayti and Porto Rico have high bluff and rocky coasts, or rather of lava formation instead of rock. The background of trees too is different. The mountainous growth of stubby trees in the tropics seem scarcely more than thick bushes, quite in contrast to the tall and stately banana and coconut palms of Florida. When we were in Key West before it seemed as though we had gone about as far south as civilization extended, but now this part of the country appears delightfully north. In fact some of the men are evidently anticipating a frost to night. I saw some of them getting out their blue flannel underclothes today, although the thermometer on deck is hovering about 100. But it is north. We are in the states again, and it must be cooler weather now. The forecast for today (it seems to change daily) is that we will reach Charleston on Sunday morning and devote about forty-eight hours to coaling. Leaving there Tuesday we ought to be in New York by Friday. That is the way it looks today, tomorrow we may be unloading the fleet in Savannah harbor. Orders are made and revoked with such chameleon swiftness in the navy that we never know where "we are at." It is a case of obeying the last order immediately. If a ship is not quite ready for sea when an order comes, the chances are that by the time she is ready, even if it be only fifteen hours, orders are changed and she will have to proceed just the opposite from original instructions. We call it the "Board of Strategy."

Well, will close for today and go down and take another whack at my scrub and wash clothes.

SPECIAL OFFER TO OCT. 30

Eighteen Cents Pays Three Months on a Magazine

An impartial judge of current magazines will agree that The National Magazine for September occupies pre-eminently a first rank. It is a timely "Peace number" and every page sparkles with timely illustrations and there is a breeziness and freshness in the text that is a bold departure from the usual staid run of magazine lore. The contents page reveals a list of the best known authors, and The National Magazine grapples with the questions of the hour in a fearless manner. The strong ground taken in holding the Philippines in somewhat radical, but it indicates that the magazine is not a negative force on public issues. Joe M. Chapple, the young and energetic publisher, is pushing the circulation at a dazzling pace, and has made the remarkable offer of three months' subscription, October, November and December, for 18 cents in stamps. The campaign is on for 100,000 new subscribers and it is confidently believed that the three months' trial will be followed by a year's subscription in nearly every instance. An investment of 18 cents in stamps could certainly not be made to better advantage than sending it to "The National Magazine," 31 Bedford street, Boston, for three months' subscription to that magazine. The offer expires on October 30.

Why Railroad Men Appreciate the Lightning Jumper

We are selling many suits of the Lightning overalls and jumpers to railroad men and machinists. The good points of the overalls have been mentioned. The jumpers are cut and made with as much accuracy as a custom made coat, fitting easy over the shoulders, long in length, and contains improved gusset in the wrist band, which positively keep hot cinders, etc., from working up the sleeve. They are over-seamed wherever there is any strain, and cut to sufficient fullness to allow for all shrinkage. T. J. Zigler.

INTENSE SUFFERING.

From Dyspepsia and Stomach Trouble.

Instantly Relieved and Permanently Cured By Stuart's Dyspepsia Tablets.

A New Discovery, But Not a Patent Medicine.

Dr. Redwell relates an interesting account of what he considers a remarkable cure of acute stomach trouble and chronic dyspepsia by the use of the new discovery, Stuart's Dyspepsia Tablets.

He says: The patient was a man who had suffered to my knowledge for years with dyspepsia. Everything he ate seemed to sour and create acid and gases in the stomach; he had pains like rheumatism in the back, shoulder blades and limbs, fullness and distress after eating, poor appetite and loss of flesh; the heart became affected, causing palpitation and sleeplessness at night.

I gave him powerful nerve tonics and blood remedies, but to no purpose. As an experiment I finally bought a fifty cent package of Stuart's Dyspepsia Tablets at a drug store and gave them to him. Almost immediate relief was given and after he had used four boxes he was to all appearances fully cured.

There was no more acidity or sour watery risings, no bloating after meals, the appetite was vigorous and he has gained between 10 and 12 pounds in weight of solid healthy flesh.

Although Stuart's Dyspepsia Tablets are advertised and sold in drug stores yet I consider them a most valuable addition to any physician's line of remedies, as they are perfectly harmless and can be given to children or invalids or in any condition of the stomach with perfect safety, being harmless and containing nothing but vegetable and fruit essences, pure pepsin and Golden Seal.

Without any question they are the safest, most effective cure for indigestion, biliousness, constipation and all derangements of the stomach however slight or severe.

Stuart's Dyspepsia Tablets are made by the Stuart company of Marshall, Mich., and sold by druggists everywhere at fifty cents per package.

GOLD MEN HAVE AN INNING.

First Day of the Omaha Currency Convention.

PROMINENT MEN PRESENT.

Paper by Edward Atkinson Is Read, and Horace White Delivers an Address—Silver Advocates Yet to Present Their Side of the Question.

Omaha, Neb., Sept. 14.—When the national currency convention assembled in the Nebraska state building Tuesday few other than the forensic gladiators who are to enter the arena for the gold standard or the free coinage of silver at 16 to 1 or the governmental issue of paper currency instead of bank notes, for the three days of the conference, were gathered there.

Among the financial teachers present were Senator William V. Allen, Chairman Charles A. Towne of the silver republican party, ex-Congressman Bartine, Editor Horace White; J. Sterling Morton, president of the National Sound-Money League, who presided over the first day's meeting; E. V. Smalley, secretary of the league; Gen. A. J. Warner of Ohio, and other greenbackers, including ex-Congressman Weller of Iowa.

Mr. Morton, in calling the convention to order, outlined the questions to be considered as follows:

"1. Is it the fixed legal ratio enacted between the coins which governs the relative value of the metals in bullion?"
 "2. Is it the relative value of the metals in bullion which governs the relative value of the coins?"
 "3. If no single and separate state can maintain a fixed legal ratio between the metals when coined in unlimited quantities, can an international agreement among the principal mercantile countries of the world do so?"

Mr. Morton then proceeded to read the paper prepared by Edward Atkinson entitled "Force Bills; or, Legal Tender," Mr. Atkinson, by reason of sickness, being unable to attend. He said in part:

"Good money needs no act of legal tender. Only bad money calls for an act of force or legal tender to make people take it whether they want it or not. The so-called free-coinage act proposed in 1893 was nothing but a pretext. Coinage consists in the manufacture of round discs of metal certified in weight and quality by the stamp of the government. That exhausts the word. Free coinage could be admitted of gold, silver, copper or nickel if that were the end of the matter. The vice of the free-coinage policy is hidden under the name of legal tender. All legal-tender acts or decrees, with the exception of those relating to subsidiary coin, have been either the acts or decrees of absolute rulers or despotic governments for the purpose of cheating their people and defrauding them of their earnings, or else they have been acts for the collection of a forced loan in the conduct of war, like our legal-tender acts of 1861-2; or for the collection of a forced loan in the conduct of war, like our Bland and Sherman acts.

"We shall never solve the difficulties and confusion of our coinage and our currency until we come back to this true conception of a double barter of one thing for another—goods for coin; coin for goods; credit money convertible into coin by weight serving its true purpose.

"The free coinage of silver of full legal tender is almost grotesque in its folly and audacity, asking farmers in the great Mississippi valley, 50 per cent of whom are free of any mortgage whatever, and are thus the creditors of the world, to give their principal customers in Great Britain the power to force British silver costing 25 cents an ounce or less upon them under an act of legal tender at \$1.25 an ounce, or 16 to 1. The force of folly could go no further."

Horace White, editor of the New York Evening Post, read a paper on "The History of the Gold Standard." Mr. White sought to show the falsity of the common saying that there is not gold enough in the world to do the business of the world.

Mr. White favors the bill recently reported by the house banking committee, which, while not retiring the greenbacks, puts upon the national banks the onus of current redemption of them, and gives the banks the privilege of issuing an equal amount of notes against their general assets, protected by a common safety fund lodged in the treasury. This, he thinks, would furnish all the money that the business of the country needs, and it would be furnished at the times and in the places where it is needed, which the government can never do, and which, he says, free coinage of silver never can do.

Gov. Leslie M. Shaw of Iowa had been requested, he said, to view the question from the standpoint of the farmer. Social and economic conditions that were good for the farmer were good for all classes. If the single standard benefits the farmer, then, barring a few silver-mine owners, it is good for all. He discussed the intrinsic value of the dollar, and said: "What is the dollar worth? It is worth 23.23 grains of pure gold. The government adds the alloy and stamps it free. The government measures its own money by weight. I am a gold mono-metallist because the world has agreed upon gold and the law of commercial convenience controls the whole matter. No act of parliament or congress can repeal the law of commercial convenience."

IN FRONT OF AN ENGINE.

Crowded Wagon Demolished—Two Persons Killed, Two Fatally Hurt.

Wichita, Kan., Sept. 14.—The south-bound passenger over the Rock Island ran into a wagon containing fifteen persons just in front of the depot here last night. Two are dead, two more will die and several are injured. The accident occurred in the center of the city and upon one of the main thoroughfares. The driver of the vehicle was warned not to attempt to cross ahead of the engine, but he endeavored to do so nevertheless, being somewhat intoxicated. The killed are:

MRS. SARAH AVERY, Wichita.
HENRY CHERRY, Mulvane.

The injured are:
Mrs. A. M. Ford, cut and bruised about head and body; injured internally; will die.

Mrs. John Marshall, Mount Hope; injured internally; will die.

Charles Jones, chief of police of Wichita; head cut.

Mrs. Charles Jones, ankle broken.

Three others were more or less cut and bruised, but not seriously. The driver, James Wilson, escaped uninjured.

EAST AGAINST WEST.

Sons of Veterans Split in Fitting a State of Officers at Omaha.

Omaha, Neb., Sept. 14.—The Sons of Veterans have held a number of caucuses in the interests of candidates for office. The result is the formation of a state which practically arrays the east against the west. Lieut.-Gov. Jones of Ohio, seeing that he would run a chance of defeat, tied up with Col. Frank Shepard of Illinois, and the latter will probably be elected commander in chief, although Oberdorff of New York has not yet retired from the race. In return for this the west is expected to allow Cincinnati to be selected for the next encampment, and to countenance the election of Adit. Gen. Bolton as quartermaster-general. George E. Cox of Connecticut will probably be elected senior vice-commander in chief and Frank J. Coates of Nebraska junior vice-commander.

Cadwallader Is Arrested.
Portland, Ind., Sept. 14.—Charles H. Cadwallader, ex-cashier of the Citizens' bank, Union City, Ind., is under arrest, and as soon as requisition papers are procured he will be returned to Indiana and tried on the charge of wrecking that bank. Cadwallader fled in May, 1896, when the bank suspended, leaving the bank with \$100,000 liabilities and assets of half that amount. He owed the bank considerable and is charged with wrecking the institution. The place where he was apprehended is not made public.

United American Mechanics.
Cleveland, O., Sept. 14.—The fifty-third annual convention of the Order of United American Mechanics was called to order here Tuesday. The report of the secretary shows: Number of state councils at last report, 19; instituted during year, 1; sub-councils last report, 732; instituted during year, 62; number members last report, 52,876; admitted during year, 7,115; amount money in treasury of sub-councils, \$599,494.72; benefits paid during year, \$148,287.44.

To Make War on Anarchists.
Berlin, Sept. 14.—At the ministry of foreign affairs it is officially declared that the way to an international compact against anarchists has been paved. An agreement has already been reached between Berlin, St. Petersburg, Vienna and Rome, and the presence of the German Emperor at the funeral of the assassinated empress of Austria will undoubtedly hasten the taking of drastic international measures against the lawless of all European countries.

Returns from Maine Election.
Portland, Me., Sept. 14.—The returns from the state election are very slow. Two hundred and twenty-eight towns out of 430 have been heard from, and they give Powers, republican, 40,597; Lord, democrat, 22,296. The same towns in 1894 gave Claves, republican, 50,663; Johnson, democrat, 22,973. This shows a republican loss of about 20 per cent and a democratic loss of about 4 per cent.

To Aid Pana Coal Miners.
Indianapolis, Sept. 14.—The national executive board of the United Mine Workers has voted \$1,000 to the third pool, Pittsburgh district strike, and retained President Ratcliff. Action sympathetic of the Pana, Ill., strikers was taken. A circular letter will be sent in a few days to all local unions asking for aid for the Pittsburgh and Pana strikers.

Our Foreign Trade in August.
Washington, Sept. 14.—The monthly statement of the imports and exports of the United States for August shows the imports of merchandise to have aggregated \$49,178,844, a decrease as compared with August, 1897, of about \$9,500,000. Of the imports during August \$21,359,693 were free of duty.

Can you believe your neighbors?
Read this statement made by a citizen:

Mr. E. T. Fish, of 355 Racine St., proprietor of the Fish Dray Line, says: "When I was twenty years of age I fell, injured my back, and ever since that I was troubled more or less with a dull, aching pain across the loins. It never laid me up but it was often painful and annoying. Of late years I have gone to a physician every six months and had myself thoroughly examined. Under the impression that there might be something wrong with my kidneys. The diagnosis always resulting in the physician claiming these organs were sound, but as the pains existed when I happened to notice in our Janesville papers that Doan's Kidney Pills were guaranteed to cure just such troubles, I procured a box at the Janesville Drug Co.'s store, and took them. Doan's Kidney Pills are a good preparation. My back has not ached since I used them. I have heard others speak very complimentary of them and if I did not know their merit and required such a medicine I would consider it a favor if some one suggested their use to me. For this reason I endorse them."

Illness Increases at Santiago.
New York, Sept. 14.—A dispatch to the Herald from Santiago says: "Five men of the Fifth regulars have died since their arrival here. Forty per cent of the regiment is on the sick list on account of malarial fever. Illness among all the troops is increasing. There are now more than 800 men in the hospital or sick in the camp. The illness is attributed to the effect of the rains on a country full of shallow graves and to miasma from the swampy surroundings. All the troops not absolutely needed in the city will be sent to more healthful camping places."

Regulars Sent to Posts.
Camp Wikoff, Montauk Point, N. Y., Sept. 14.—Orders have been received for the removal of three more regiments of infantry tomorrow. The Fourth will go to Fort Sheridan, Ill., the Thirtieth to various barracks in New York state and the Seventeenth to Columbus, O. Transportation has also been arranged for the removal of the Twelfth infantry to Jefferson Barracks, Mo., the Second to Omaha and the Third cavalry to Fort Ethan Allen, Vt., but the date of their departure has not been fixed.

Will Take Two Months.
New York, Sept. 14.—A special to the Herald from Washington says: "In an interview last night Secretary Day said: 'Nothing has occurred since the signing of the protocol to embarrass the work of the peace commission or to endanger the success of the peace negotiations. I do not anticipate that the deliberations of the peace commissioners will be prolonged. It ought not to take longer than six weeks or two months to conclude a treaty of peace.'"

Not Moving Fast Enough.
Washington, Sept. 14.—The Spaniards are not evacuating Cuba as fast as many people in this country wish them to. It is claimed by those who are urging the government to take vigorous steps toward accelerating the retirement of the Spaniards from the island that the government at Madrid is trying to hold on to the Cuban customs duties as long as possible.

Gen. Gomez R. L. S.
Santiago de Cuba, Sept. 13.—An uncontradicted report was received by Gen. Lawton last night that Gen. Maximo Gomez, the insurgent commander-in-chief, has tendered his resignation to the Cuban government at Camaguey, and that it has been accepted.

Newspaper Men Rescued.
Key West, Fla., Sept. 14.—The Norwegian steamer Albia, of the Munson line, has just arrived from Nuevitas, en route to Galveston. She brings the crew and correspondents from the newspaper dispatch boat Kanapaha, which was wrecked off Nuevitas on Sept. 5. All on board the dispatch boat were saved.

THIS DAY IN HISTORY.

407—John Chrysostom, famous and eloquent preacher of Constantinople, died.
1821—Dante degli Alighieri, Italian poet, died; born 1265.
1547—Jan van Olden Barneveldt, Dutch statesman and martyr, born; beheaded May 18, 1610.
1507—Fulton first ascended the balloon.
1851—James Fenimore Cooper, writer of popular Indian romances and of the first history of the United States navy, died at Cooperstown, N. Y.; born 1789.
1852—The Duke of Wellington died at Walmer castle, England; born in Ireland 1769.
1893—Brazilian insurgent ships opened fire on government forts at Rio Janeiro.
1894—Rear Admiral Edward J. McCawley, U. S. N., retired, died at Jamestown, R. I.; born 1827.
1895—Spain paid the United States the celebrated Mora indemnity of \$1,419,000.
1896—General E. R. Wadsworth, a Wisconsin war veteran, died in Chicago; born 1823.

The Beloit Free Press says: "The Oshkosh Times has come to the assistance of the Janesville Recorder and other Rock county democrats by discovering that there is a 'ring' in Rock county that is gobbling up all the county offices and thereby depriving willing democrats of them. The Times can hardly claim a medal for its discovery, as if it will investigate the political history of Rock county, it will learn that the 'ring' has been known of for these many years. It is a ring that includes two-thirds or more of all the voters of the county, and its other name is the republican party of Rock county. It is a solid 'ring' and seldom has it been broken."

Assemblyman William G. Wheeler's talents made their impress at Madison, as the following, from The Madison State Journal shows: "Hon. William G. Wheeler was renominated for member of assembly at the first district assembly convention held at Janesville Thursday. Mr. Wheeler was one of the most competent and influential men in the last legislature. We are glad to know that he is to be reelected."

The critical stage of General Miles' career has arrived, and it is to be sincerely hoped that he will do nothing that will cause a certain Milwaukee journalist to abandon him, as that would mean the general's total destruction.

Admiral Dewey's dispatch saying that the situation in the Philippines is critical, does not cause alarm, as the people realize that Admiral Dewey knows just what to do in such a case.

The generous amount of free advice that is offered The Gazette by a certain paper that need not be named, would seem to indicate that General Miles also runs a "doodle book."

Obeying news comes from Jacksonville to the effect that the cooler weather has resulted in great improvement among the sick, and all are now said to be out of danger.

Uneasy is the head that wears a crown. The Empress of Austria was assassinated, and the next day an attempt was made upon the life of the Queen of Holland.

Admiral Oervera has sailed for home and proposes to tell his fellow countrymen that the Americans are a thoughtful, considerate and generous people.

Miss Clara Barton has just returned from Havana and says the facts that came under her observation give no basis for the clamor of the yellow press.

Milwaukee will have its much discussed municipal garbage plant, the common council having awarded the contract. The plant will cost \$53,500.

A fanning mill may make as much noise as a threshing machine, yet it only scatters chaff. This is as true of imported fanning mills as of any kind.

The Milwaukee Sentinel got out a

special edition in honor of Wisconsin day at the Omaha Exposition, that was a credit to the state.

The soldiers of the Fourth regiment received the order to proceed to Anniston, Alabama, with cheers.

Oshkosh water pipes are being damaged by electrolysis and litigation is likely to result.

It requires more than a few pipes to make an organ of an organette.

Differences in Thumb-Marks.

It may be thought that one thumb is very much like another, or that, at any rate, the differences are so small that it would be almost impossible to distinguish one from another. But it is not so. There are not, it is credibly stated, two thumbs in a million upon which the lines are exactly alike; and a man who pays attention to the subject soon learns to distinguish the differences so perfectly that he can recognize the thumb-mark as easily as an ordinary detective can recognize a face. And thumb never alters, no matter how long its owner may live. The lines which were upon it when he was born will be upon it when he dies, and, however much the man may have changed, they will remain.

His Awkward Past.

The victorious captain whined when asked as to his past. "I was a good boy in school," he answered, with an effort, "studious and prompt. I used to bring my teacher a bouquet every morning." That was all he would say; not a word of palliation could be gotten from him.—Detroit Journal.

Why Glass Globes Break.

The breaking of glass globes is very frequent, as all housekeepers know. Their durability may be greatly increased if they are tempered beforehand. This is done by putting them in a large pan and covering them with cold water. The pan is then set on the range until the water boils. When that occurs it is removed from the fire, and the globes are allowed to remain in the water until it is perfectly cold again.

They Divide the Field.

Two rival newspaper dealers at Warrensburg, Mo., having found the town too small to support both, have entered into a novel agreement for a division of the spoils. One has suspended publication until July 1, 1899, on which date the other will enter into a lethargic state and leave a clear field for the one which is now comatose.

DIFFICULTIES OF THE HOME COMING

HOSPITAL TRAIN FROM JACKSONVILLE NEGLECTED

Neither Medicines Nor Food Provided For the Sick Soldiers—Camp Conditions Were None of the Best—Mrs. Montgomery, of Madison, Proves a Good Angel.

It was fortunate for the boys on the hospital train that S. G. Bond, of Milton, and Mrs. Montgomery, of Madison, were on board. Both went to Jacksonville to nurse their sons, and in describing the trip home the Milwaukee Sentinel correspondent says: "Mrs. Montgomery and Mr. Bond were probably the means of preventing the most intense suffering on the part of some of the convalescents. They were awake day and night nursing not only their own sons, but every sick soldier who needed their attention. They prepared nourishment for the lads, sent telegrams for them, and in every way made the sick comfortable. Both of them were nearly exhausted."

Experienced in Hospitals. Mr. Bond had three years and a half of service in the United States hospitals during the civil war. He was attached to the general hospital service at Fort Riley, Kansas, then went to the United States Post hospital at Columbus, Ky.; was made steward of the United States Post hospital at Camp Randall, Madison, and later was acting steward for the United States general hospital in Milwaukee. His experience in hospital management and camp sanitation made him a careful observer in Jacksonville, and give his opinions unusual weight. Mr. Bond spent considerable time investigating conditions in Jacksonville. He came back satisfied that lack of discipline and lack of adequate policing were responsible for much of the sickness. Lack of experience among the officers led to the selection of undesirable camp grounds by some of the regiments in the beginning. The First regiment was warned by a number of Jacksonville citizens against their first camping ground, but remained on the low ground until they were undermined in health and had no strength to build on. Most of the ground on which Camp Cuba Libre was located was dry and well drained as far as Mr. Bond was able to see.

Disregarded Sanitary Laws

"I talked with the commissary of a regiment right alongside the First Wisconsin," said Mr. Bond to a Gazette reporter today, "and found that they had eight sick instead of four hundred as was the case with the First Wisconsin. That regiment had been under strict police regulations from the first. The men had been compelled to keep tents, streets, company kitchen, in fact all their part of the camp perfectly clean and sweet. They were also held strictly to the regular army ration, and were not allowed to touch any fruit. Jacksonville citizens claim that in the hottest weather men from nearly all the regiments were buying melons by wagon load and stuffing themselves with fruit from the ill kept negro fruit stands. Fruit and pie topped off by a bottle of beer were said to be favorite luncheons of the men on the very hottest days."

"I never felt so sorry for anybody as for the division hospital corps in Jacksonville. They are working night and day and ninety per cent of them will be broken down for life so great has the strain been. The force has been inadequate and it has been difficult to get supplies. The trouble as to supplies is due to the classification of the hospital. Had it been graded as a United States government post hospital supplies could have been had without difficulty as requisition could have been made direct. For purposes of supply, however, the Jacksonville hospital has ranked precisely the same as a regimental hospital and requisitions could therefore go no further than to the quartermaster, who often had no means of filling them. Being able to draw on government resources only with great delay, the hospital has had to depend on private resources, which at first were very scanty. The hospital officers now have \$350,000 of private resources to draw against, and a great change has been made in the last few days. Until the last few days the hospital has lacked medicine constantly, and has had to rely on the Red Cross for medicines. The Red Cross nurses began to arrive in numbers about a week ago, and the change in the condition of the patients was marvelous."

"If that hospital had had the assistance and sympathy of the people from the first instead of their curses, fifty per cent of those who died would be alive today," said Mr. Bond with great feeling.

The Trip North.

When asked about the trip to the north Mr. Bond said: "There had been talk of a hospital train for several days. Sunday it was decided to send two cars. At 4 o'clock Sunday afternoon the loading began with everybody in a hurry. There seemed to be nobody to take charge, and Mrs. Montgomery, of Madison, who has been down on the same mission as myself, was placed in charge of the car. She was nearly worn out, but was assured that she would have enough Red Cross nurses to bear the burden of the work, and that a buffet would be on the train with ample food. The train started before supper Sunday with no physicians, no medicine, no nurses, and no food suitable for fever patients. Several of the patients were delirious. They were suffering for food, but went through the night with what little we could pick up. What made it harder was the fact that half the occupants of the first car were special diet patients who could not eat solid foods."

It takes three hours for Chicago evening papers to get to Janesville. It takes less than one second for the telegraph to cover that distance. The Janesville Gazette receives full press association dispatches, and the news is three hours later than that of Chicago and Milwaukee, evening papers sold in this part of the state.

Along the Route. "The patients were very delirious throughout the night, and Mrs. Montgomery so wore herself out caring for them that she had to go to bed. When we stopped at 7 o'clock in the morning I ran out to a hotel and was able to get one hundred orders of toast that had been prepared for other parties, and got a supply of milk. I had to do this same thing all along the line. The money to buy food was raised by levying assessments on the boys, they having been paid \$4.50 apiece before starting to cover their expenses."

"We struck the Red Cross at Cincinnati, and the boys had a good breakfast. The Red Cross people assured us that nothing need be bought for the day, but at noon we found ourselves on the road without a sick ration on the train. We struck Chicago at dusk, and it took so long getting around the loop to the O. & N. W. tracks that it was 8 o'clock when the train got into the O. & N. W. depot. By that time the boys were feverish, hungry and nervous. I found some of the Red Cross people in the depot, however, and they provided for the train splendidly."

"All the patients came through surprisingly well except one, who was given improper food by his mother before reaching Chicago, suffered a relapse, and was left in Chicago very sick. It is feared he will die."

In spite of the fact that Mr. Bond had not had his clothes off for forty-eight hours he was busy all forenoon providing for the comfort of the men in the hospital car, which was side-tracked in a shady corner of the C. & N. W. yard.

TWENTY-EIGHT SICK AND FOUR CORPSES

SPECIAL CAR CONTAINING PATIENTS ARRIVES HERE

Mrs. Montgomery, of Madison, in Charge of the Sick—Things Are in Bad Shape at Jacksonville—Bond and Caniff Arrive—Osgood's Body Here.

Twenty-eight sick boys, members of the First Wisconsin regiment, arrived in Janesville this morning at 12:45 in the Pullman sleeper "Valpa," that was attached to the rear of the regular Chicago midnight north bound passenger train.

The sick were in charge of Mrs. Montgomery, of Madison, who had gone to Jacksonville for the purpose of bringing her sick boy home.

The Sick List.

The sick were: Co. A—JORDAN and CANIFF. Co. B—HENDERSON, HANSON, WHITNEY, JAYSON, GEORGE. Co. D—KIRKPATRICK, RICHARDSON, MAHURIE, GRANT. Co. E—ROBINSON. Co. G—ALANSON, GETTS, CUNNINGHAM, BOWERS, LAMP, MONTGOMERY, ANDERSON, LINK, DAVIS. Co. H—AUSTIN, BRIDGE, SONNENFELD, NEE, SHOBOR, FESSENDEN, CARROLL.

The Dead

In the baggage car ahead were four corpses that were removed here. The bodies were: CLARK OSGOOD, Afton, aged 18. Died of typhoid fever. ROBERT DOOLE, Fort Atkinson, aged 22. Died of typhoid fever. A. W. BLAXAM, Whitewater, aged 20. Died of chronic dysentery. HARRY N. WILLIAMS, Gratiot, aged 23. Died of typhoid fever.

All Were Cared For.

The car was side tracked in front of the depot, and there it remained over night. This morning at 6 o'clock all was hustle within, and the work of removing the sick was under way in charge of Mrs. Montgomery and Miss Robinson, a nurse who accompanied the car from Chicago. Sick boys who reside at Fort Atkinson were sent north at seven o'clock on the regular passenger. Monroe and Darling-ton's sick were sent west on the regular 9:30 train. At eleven o'clock the sleeper containing the Madison sick was attached to the regular north bound passenger at Afton. Bond, of this city was taken to the home of friends here in the patrol wagon. Caniff is able to walk about, and is fast improving, as is Bond.

Plenty of Assistance

Willing hands were at the depot this morning to do all in their power to aid the sick. When it came time to transfer the sick to their different trains the patrol wagon was called and the stretcher, with willing hands manning it, was brought into use. Of the sick all were in a fair way to recovery with the exception of Davis, of Madison. He was suffering with typhoid fever in its worst stage. His heart was in poor condition and those in charge feared that he would never reach Madison alive.

Dr. Montgomery, of Madison, was sent here to accompany the Capital City boys home. William J. Anderson, private secretary to Gov. Scofield, was also on hand here this morning, and everything that was within his power to do he did in as short a time as was possible. Surgeon Major T. W. Evans, of Monroe was also here with the car, and did everything to relieve the suffering. He joined the car at Indianapolis.

Postmaster O. F. Nowlan, boarded the car here and offered to supply anything that was needed. The bodies of Doole, Blaxam and Williams were sent to their destination this morning. The body of Private Clark Osgood was taken to the local undertaking establishment of Joshua Crall & Son. Services will be held in this city tomorrow at the Congregational church at 2 o'clock and the interment will be in Oak Hill cemetery.

Mrs. Montgomery, of Madison, who had the car in charge, said: "I left home some time ago for the purpose of going to Jacksonville and getting my own son, who was dangerously ill with fever. When I arrived I found things in bad shape, especially in the hospital. From day to day they put me off on getting me a furlough for my son, each time saying to come around the next day. Finally, when I received it and I was ready to start they asked me if I couldn't take more of the sick of the First Wisconsin. I said I could, and then they filled a car with the sickest of men and sent it north with a Mrs. Bridge, of Monroe, Joseph Paulk, of Milwaukee, a member of the ambulance corps, of the Seventh Army Corps and myself in charge."

No Doctor On Board.

"When we pulled out of Jackson-ville there was no doctor aboard, nor was there one drop of medicine to give the sick. We had been out but a few hours when four of the men became hysterical, and it was all we could do to manage them. Wet towels were put about their ankles and wrists, and in this way we relieved them somewhat. Not one particle of food was in the car, and on the way we had to purchase southern milk that was vile and which the people had the nerve to charge us fifteen cents a quart for. On reaching Chattanooga we were given our first royal welcome. Here a physician was in waiting, and the people did all in their power to relieve us. At Indianapolis the citizens could not do enough for us, and from that time on we wanted for nothing. The Army and Navy League

there are doing humane work on a wholesale scale.

Will Speak Her Mind.

"I blame the high military officials at Jacksonville for all this misery, and when I get home you will see that they will each get a personal letter from me that will tell them my private opinion of them and their work. A private lift at Jacksonville is worth about as much as an army salute."

Were Cared For at Chicago.

A committee of the Army and Navy League took care of sick soldiers belonging to the First Wisconsin at the Northwestern depot last night. Several of the men were very low. Mrs. Montgomery and Mrs. C. T. Bond, both of whom had gone to Jacksonville to nurse sick sons, were on the train and assisted the surgeons in the care of the boys. There were forty-nine of them. The train was in charge of Major T. W. Evans, of Madison. The sick were: Bond, Caniff (A), Houmpeps, Rashill, Hanson, Jay, Cox, Henzo (B), George, Kirkpatrick, Sordison, McGuire, Richardson, Grant (C), Robinson (B), Adamson, Gell, Cunningham, Bowser, Camp, Montgomery, Andrews, Link, Davis (G), Austin, Budge, Summerfield, Shober, Fessenden, Carroll (B) Allen, Monahan, Bondman, O'Connor (J), Grizyaki, Pavelski (K), Lidmarsh, Meyer, Lange, Nelson (L), Welkey, Baker and Robinson.

Jack Davis, Lewis Bond, and Ole Nelson were the most serious cases. They have all been sick for some time with typhoid fever and are delirious. William George (G), of Whitewater, had a broken leg. He was taken from the train and sent to the home of his uncle, W. G. Barker, of Chicago. Arthur L. Bruner, musician of the Forty-Ninth Iowa, came through on this train, and was cared for in the depot until he could get a train for Iowa City. He has typhoid fever and had to be carried from the train on a stretcher.

The report that four men had died en route was a true. The train brought the remains of Robert Doole, Henry V. Williams, A. W. Bloxheim and Clark Osgood, who died at Jacksonville.

Clark Osgood's Funeral

Fear that the body might convey typhoid fever the remains of Clark Osgood, who died at Jacksonville, will not be taken into the church tomorrow afternoon but will rest on the sidewalk in front of the church while services are being held within. Undertaker George Davis, who will be in charge, says that the remains will be shown to those who care to take a last look. The body is in good condition and will be taken from the Ferris homestead on Fourth avenue at 1:30 o'clock to the church.

The Smallest Electric Lamp.

An incandescent electric lamp about the size of a pea, called the transilluminator, which has been perfected by Dr. Phillips, of New York, now forms one of the most remarkable and valuable appliances in medical science. Although of this diminutive size, the lamp gives a light equal to four candle-power. Dr. Phillips recently showed what the lamp would do. Darkening the room, he placed the lamp in his mouth, so that his lips rested on a rubber socket, and turned on the current. The result was as if a strong light had been placed behind a thin canvas, upon which had been painted a man's face. The light shone through the cheeks, rendering every vein perceptible. By moving the lamp about the interior of the mouth every part of the face could be illumined, and by resting the lamp against the gums the outlines of the teeth in the gums were plainly visible.

Hard to Salt.

Upon returning to Owenton a gentleman who had been away for some time met an old friend and in order to celebrate the reunion asked him to take a glass of beer. "Beer!" said he, with perfect disgust, "why, I'd rather drink boneset." "Well, then," urged the returned friend, "let's take a glass of lemonade." "Great Scott, man, I might stand pargoric, but lemonade, never." Not to be thwarted in his expression of good-fellowship as a last resort soda water was next suggested. Our teetotaler would probably have taken coffee had it been offered, but soda water was a little too much for him. Said he, evidently from the bottom of his heart: "Soda water, did you say? Why, I'd as lief have the hydrophobia!"—Owenton (Ky.) Herald.

OUR STAR PLAYERS.

PROPOSED THEATER FOR THEM IN THE PARIS EXPOSITION.

The Lichtenstein Estate and Two New York Merchants Will Furnish the Money—\$750,000 Is Subscribed—It Is to Be a Typical American Theater.

Application has been made for space in the American section of the Paris exposition of 1900 in which to erect a splendid American theater and roof garden, to be called the American theater and to be given over to American vaudeville, burlesque, drama and opera performances by American stars of the first rank. It is intended to make it in every sense a typical American theater in appointments, methods and performers and it is to be kept open for the entire term of the exposition, from April till November.

The projectors of this unique and elaborate scheme are three New York gentlemen, who have notified the government officials at Washington, through their representative now in Washington, that they have subscribed a guarantee fund of \$250,000 each to carry the plan through. The main projector of the movement is Mr. Alexander Lichtenstein, one of the managers of the Harlem Opera House in New York, representing the estate of the late Benjamin Lichtenstein, which owns the Harlem Opera House and several large office buildings in the same city. The estate subscribes \$250,000, and two New York business men, one a banker and the other a diamond merchant, whose names I could not learn, have also subscribed a like sum each, making \$750,000 in all.

The representative of these gentlemen, Mr. George A. Blumenthal, one of the associate managers of the Harlem Opera House, has filed with the state department an application for space, setting forth the full plans of the scheme. He is now in Washington to present the details to those in charge of exposition affairs and is interesting the New York congressional delegation and other influential men in the application.

Mr. Blumenthal has told several gentlemen in Washington that for some weeks Mr. Lichtenstein and he have been completing the final plans for a theater in the exposition grounds, to be built of steel, 75 feet front and 150 feet deep, to seat, according to the architect's plans, 2,750 persons, with a roof garden of most elaborate design, with a capacity that will accommodate 2,100 people. There are to be four tiers of proscenium boxes, four boxes in each tier, on each side of the stage, making 82 in all, seating eight persons. The total cost of the building, it is estimated, will be \$250,000.

The entire building will be kept open seven days in the week from 9 o'clock in the morning until 12 at night, and three performances will be given each day. In the morning, from 10 to half past 12, there will be a vaudeville performance by American performers of the first rank. In the afternoon and evening operas, dramas, comedies and burlesques will be presented. If an opera is given in the afternoon, then in the evening there will be a drama or a comedy, or vice versa. This plan, it is thought, will be to the advantage of everybody concerned, as it will enable the sightseers to witness a greater variety of entertainments and a greater number of our representative actors in a limited period, while it will also give the actors opportunity to enjoy the sights of the exposition during their engagement at the theater. Each star and company that plays at the theater will be required to give from three to five performances a week—in no case more than five.

In selecting the actors who are to appear at the Exposition theater it is the intention of the management to engage only those who have achieved national fame and who are regarded here as thoroughly representative Americans. Negotiations have already been opened with Mr. Richard Mansfield as the foremost exponent of the American dramatic actor, with Mr. Nat Goodwin as the representative comedian and with Miss Lillian Russell as the leading comic opera prima donna. No selection has yet been made for the burlesque roles, but this class of entertainment is to be one of the features of the series of performances, and the very best actors and actresses obtainable will be secured.

The productions as well as the plays and the operas and the actors will be thoroughly American, and the projectors of the scheme have already made arrangements with several American costumers and scenic artists to provide the necessary appointments.

Mr. Paul Schuchardt has already been engaged to conduct the operas and burlesques that will be presented. Stage hands, ushers, box office officials and doorkeepers—in fact, everybody employed in or about the theater—will be Americans either by birth or adoption, and even the programmes, posters and tickets will be printed by Americans. One novel feature will be a money exchange in the lobby of the theater, where French money will be changed free of charge into American, which is the only kind of currency that will be accepted in payment for tickets. On the roof promenade concerts will be given afternoon and evening by an American band, and the projectors have strong hopes of securing Mr. John Philip Sousa as conductor.—New York Herald.

Jubilee of Austria's Emperor. On December 2 next the Austrian emperor will have completed the fiftieth year of his reign and the event is to be signalized in a fitting manner. The jubilee will begin on November 30, when there will be a procession of imperial and royal personages from the Hofburg to St. Stephens cathedral, where a grand Te Deum will be sung. The following day there will be a court dinner, a dinner for all the generals of the Austro-Hungarian army and a gala performance at the imperial opera.

BASEBALL REPORT.

Games Played Yesterday in the Various Leagues.

Chicago won once and New York lost twice, fortifying the Orphans still further for the inevitable losses of the eastern trip. Fifth place seems almost a certainty now. Baltimore made up more than it lost the day before, downing the Giants twice, while Boston found the Phillies too strong. Philadelphia shoved Pittsburgh out of seventh place. Today the east and west games begin all along the circuit. Chicago will tackle Philadelphia, a much improved team. Scores: At Pittsburgh—Chicago, 4; Pittsburgh, 0.

At New York—Baltimore, 3; New York, 1. Baltimore, 5; New York, 0.

At Philadelphia—Philadelphia, 5; Boston, 3.

TURKEY MUST PAY.

President McKinley Determined to Bring the Sultan to Time.

Washington, Sept. 14.—President McKinley has decided to enforce the payment of the claims of Americans for property destroyed in Armenia against the Turkish government.

The sultan recently sent an official communication advising the United States that his government did not feel that it was responsible for the destruction of the property in question, and consequently would decline to compensate the Americans for its loss.

The administration has determined the claims must be paid, and that if necessary force will be employed to compel compliance with the demands. Minister Angell, who was sent to Constantinople at the beginning of the McKinley administration, was special-in German emperor at the funeral of these claims. He had several conferences with the ministers of the sultan, but without success. Finally he declared that unless the Turkish government agreed to pay the claims at once he would order warships into the Bosphorus.

Rollins Named for Governor.

Concord, N. H., Sept. 14.—Frank W. Rollins of Concord was nominated for governor by one of the largest republican conventions ever held in the state. The platform approves the increase of the navy, the upbuilding of our merchant marine, the enlargement of the regular army to meet the present requirements of the country, the construction of a canal connecting the Atlantic and Pacific oceans, the annexation of Hawaii, Porto Rico and the Philippines, the provision for a free and stable government for Cuba and its ultimate annexation.

Swiss Government Was Warned.

Berlin, Sept. 14.—Lucheni, the murderer of Empress Elizabeth, in his letter to a Milan newspaper, refers to an anarchist plot hatched at Zurich July 25. It is said the German secret police and also the French government knew about this plot and that both informed the Swiss government of what they had discovered. The German press is discussing pro and con the subject of severer legislation against crimes menacing the public peace.

Red Men Discuss Saloonkeepers.

Indianapolis, Ind., Sept. 14.—Robert T. Daniel of Griffin, Ga., the chief officer of the Order of Red Men, in his annual address before the grand council advised that the members of the order parade at succeeding councils. The report of Charles C. Conley, chief of records, shows that the order now has 69,000 members. The grand council discussed the question of excluding saloonkeepers from the order, but did not reach a decision.

McCoy Is Disgusted.

Buffalo, N. Y., Sept. 14.—"Kid" McCoy went east Tuesday. "I am satisfied," he said, "that the fight between Corbett and myself never will be allowed to take place before the Hawthorne club, no matter what recourse the club may have in the courts against Sheriff Kilgallon." The Hawthorne Club people intend to bring an action against the sheriff, but the Corbett-McCoy fight undoubtedly is off.

Men of Good Taste

Will find us catering to their clothing wishes to a larger extent than ever this fall if such a thing is possible.

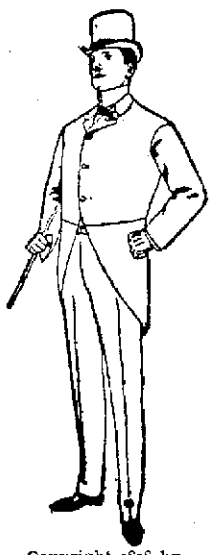

Elegant

New Fall Suits!

Made up in double and single breasted, in blue serge, the most popular of all fall goods; cashmeres and chevots. These suits are made by the most famous clothing manufacturers in the United States. They sell at from . . .

\$15 to \$20 and compare with the \$30 and \$35 made to order clothing of the custom tailor.

Copyright 1897 by The Stein-Block Co. Copyright 1898 by The Stein-Block Co.

THERE IS NO COMPARISON

Mind you between these suits and the cheap, thrown together, made to measure suits. The clothing we offer this fall at \$15 to \$18 contains every point that is found in the best tailor made garments. The linings, for instance, we guarantee the entire season. If a thing happens to linings we replace them free. It's a hard matter to change the prejudice of the tailor made suit man against ready-to-wear clothing. They forget there has been a radical change in the past few years in the way of making up clothing, and they cling to the idea that what was, still continues. Don't confuse these goods with the cheap, grades of ready-to-wear suits. The suits we are speaking of are made to compete with tailor made suits, and our word for it, they are successfully doing so. We are selling each season more of these high class suits to tailor suit men—converting them, so to speak.

We can do the same with you if you give us half a chance. It means a sight of money saving for you if we can. We press these suits whenever you want them, free.

LATE NEWS BY TELEGRAPH.

TO GUIDE THE PEACE BOARD.

Cabinet Fixing Instructions to Commissioners.

THEIR TASK WILL BE HARD.

General Feeling at Washington That the Spanish Government Will Be Unable to Comply with Our Demands, Reasonable as They Will Be.

Washington, Sept. 14.—The cabinet sessions Tuesday were very important. All the members were present, with the exception of Secretary Alger, who is in Michigan. The instructions for the guidance of the peace commissioners were submitted in well-advanced form, having been drafted by Secretary Day to represent the views of the president, who desired and secured a free discussion of them by the cabinet. It is not known what changes, if any, were made, or whether the Philippine question had been disposed of.

The members of the cabinet refuse absolutely to discuss the matter, having been placed under a pledge of secrecy by the president, who believes that publication of the instructions at this time would seriously impair the work of the commission.

The idea prevailing is that the island of Luzon will be demanded by the United States, the remainder of the Philippine group to continue under Spanish rule, with a guaranty of good government, the removal of the causes that led to the Philippine insurrection, a pledge that none of the Spanish territory will be disposed of without the consent of the United States, and certain commercial concessions from Spain in the Philippines and other eastern possessions.

All the members of the cabinet agree that Manila, with its harbor and bay, should be retained as a commercial and naval base, with sufficient surrounding territory to make it self-supporting and assure its defense. Several of the members are reported to strongly favor the retention of the entire island of Luzon, but it is not known that any argue in favor of keeping the entire archipelago.

The president listened with much interest to the views of his cabinet officers, and will discuss the question with the peace commissioners, after which his policy will be given the form of complete instructions to be submitted at the cabinet meeting Friday for final ratification.

While the commissioners will go to Paris with instructions practically in the form of a demand, and will not be given much discretion in the settlement of the questions raised at the sessions of the commission, the impression is growing here that their work is likely to result in complete failure through the refusal of the Spanish commissioners to agree to the surrender of any territory in the Philippines. The sentiment in Spain at this time among the politicians and leaders seems to be that any further alienation of territory will cause a revolution. The effort to displace Gen. Blanco, Linares, Weyler, Admiral Cervera and other officers of the army and navy has inflamed the public mind to a degree where the people are ready for revolution. This condition in Spain is the cause of the belief that the Spanish commissioners will be forced to the position of compelling the United States to continue the war to obtain the Philippine territory desired. It now seems probable that if the territory is voluntarily surrendered the government will have an uprising at home that will be more disastrous than a few shots from Dewey's ships or a naval demonstration off the coast of Spain.

An eminent justice of the supreme court said that he expected the Philippine question to be settled by military occupation. He has been closely following developments and firmly believes that Spain will refuse to surrender any more territory.

Assistant Secretary of War Mellichampe is also of the opinion that the ultimate outcome will be that the United States will be compelled to continue military operations in the Philippines until its control over the territory desired is not contested. He is prepared for the failure of the Paris commission.

The president also takes the view that the war is not over, and while he hopes for a peaceful solution of the Philippine question, he will not permit any more of the volunteer regiments to be mustered out until the work of the commission is advanced and the policy of the Spaniards developed.

There are now in the service, including the regulars and volunteers, and not including the soldiers on furlough awaiting muster out, about 100,000 men. This force is considered adequate to meet all possible emergencies.

NO MORE VOLUNTEERS TO QUIT. War Department Announces the Muster-Out Is Complete.

Washington, Sept. 14.—Tremendous pressure is still being brought to bear on the war department to have more troops mustered out of the service. Efforts in this direction, however, are of no avail. It is announced with increased emphasis that there will be no more troops mustered out. The situation does not admit of any further reduction in the army, and efforts are being made to put those volunteers who are trained in the service as near

as possible on the footing of the regulars in the matter of drill and discipline.

The purpose when the muster-out began was to muster out 100,000 volunteers. A little over 96,000 have already been mustered out. The retention of the volunteers now in the service and the efforts to improve the morale of the army has in view the Philippine situation more than that of Cuba or Porto Rico, though there is a great deal of vagueness as to the danger apprehended there.

Greeted at Indianapolis.

Indianapolis, Ind., Sept. 14.—The One Hundred and Fifty-eighth infantry, which Indianapolis claims as her own, having Indianapolis men for regimental officers and containing three Indianapolis companies, arrived home Tuesday and was greeted by thousands of people. The boys remained in their cars over night, and marched to camp today at the state fair grounds, where the One Hundred and Fifty-ninth is in camp. On their arrival there the women of the city gave them another reception and a dinner.

More Ships for Dewey.

Washington, Sept. 14.—The administration is preparing for trouble in the Philippines. The Oregon and Iowa, which are to sail to the Pacific, bound ostensibly for Honolulu, are really going so as to be in position to reinforce Admiral Dewey should he need help. As it is known that Admiral Dewey's ships can give but little assistance in the suppression of Aguinaldo and his insurgent army, it is evident that the administration fears foreign complications.

Yellow Fever at Ponce.

San Juan, Porto Rico, Sept. 14.—A messenger has arrived here from Ponce reporting the situation there as very grave as regards yellow fever. There have been four cases there, two of which were fatal. The disease started in the camp of the Nineteenth regulars, where one man died. The fever has also appeared in the general hospital.

Has Two Days to Decide.

Manila, Sept. 14.—Aguinaldo has two days in which to decide whether he will obey Gen. Otis' ultimatum to withdraw his troops from the suburbs of Manila. The impression seems to prevail that the insurgent chief will gracefully submit. Gen. Pio Pilar, commanding the insurgents at Malate, will probably refuse to obey. If he does, there will be serious trouble.

Will Send Ships to Crete.

London, Sept. 14.—A dispatch to the Central News from Athens says the United States will demand reparation from the Porte for the murder of British Vice Consul Calcherinos, who was also the American consular agent. It is stated that the United States has decided to send four warships to Crete.

Sixth Regiment at New York.

New York, Sept. 14.—Illinois Sixth regiment is home from Porto Rico, having arrived at Weehawken, N. J., on the transport Manitoba Tuesday, after a five days' voyage from Ponce, with the command is Capt. Yeager's battery A of Danville, the whole being under Col. Jack Foster of Chicago.

Land Arms in the Philippines.

Manila, Sept. 14.—The American park Abbey, with a cargo of arms and ammunition from the United States, which left Canton ostensibly for Singapore under heavy bonds ten days ago, has now, it is said, landed 5,000 Krag-Jorgensen rifles and cartridges in Batangas province for the insurgents.

Situation Not So Serious.

Washington, Sept. 14.—Rear Admiral Dewey cabled the navy department Tuesday saying that the situation in the Philippines is not so critical as was believed a day or two ago.

Ultimatum to Turkish Government.

Candia, Island of Crete, Sept. 14.—Rear-Admiral Gerald Noel, commander of the British naval forces in Crete, waters, has issued an ultimatum to Edhem Pasha, the Turkish military governor of Crete, demanding that within forty-eight hours he should deliver up the ringleaders of the recent outbreak and massacre, surrender the fort and ramparts defending the town and disarm the Mussulman troops.

Board Rates Nominees Off.

Indianapolis, Ind., Sept. 14.—The state board of election commissioners today by a vote of 2 to 1 declined to permit the names of the democratic candidates for judges of the appellate court to appear on the state ballot. Two republicans and one democrat form the board. The former declare there are no vacancies. The democrats will carry the case to the supreme court.

May Be Put to Death.

Geneva, Sept. 14.—The Tribune says it is possible that Luceasi, the assassin of the empress of Austria, may not escape the death penalty. As a foreigner, the paper says, he may be delivered over to Austria under the law of extra-territoriality, to which the empress was subject at the time of her death. The laws of Geneva do not inflict the death penalty.

REGULARS WILL GO TO CUBA.

Volunteers Are to Garrison the Home Ports.

ARMY TO BE STRENGTHENED.

It Is the Intention of the War Department to Send Sixty Thousand Men to Cuba After the Rainy Season—State Troops for Philippines.

Washington, Sept. 14.—Arrangements for the military occupation of Cuba and Porto Rico are now under consideration, but it is not the intention of the president to send an army to Havana and other ports of Cuba now occupied until the healthy season arrives. The intention is to wait until all danger of the terrible Cuban fever is over and to compose the army of occupation almost entirely of regulars.

The idea is to send about 60,000 men to Cuba and to have an army of from 10,000 to 12,000 in Porto Rico. This will require a force somewhat larger than the regular army and the deficiency will be made up by some of the best volunteers.

There has been considerable talk of the Seventh army corps, under command of Gen. Lee, being sent to Havana, but it is extremely doubtful that this will be done. The plan under consideration is to use the volunteers that are retained in the service for garrison duty in this country, and many may have to be sent to the Philippines or to Honolulu, where they will be available for a call to Manila if necessary. The purpose is to fully recruit the regular army and rely on it almost exclusively for the Cuban service.
